UN Global Compact Delivering Impact

An introduction to the private sectors UN initiative

Date
November 15, 2023

Time (CET)
[TBD]

Location
Room [TBD]
UN City
Marmorvej 51
2100 Copenhagen

Workshop Description
The UN strongly encourages all suppliers to actively participate in the UN Global Compact. To that end, the UN Supplier Code of Conduct has been developed with recognition of the importance of the ten principles of the UN Global Compact and is viewed as an important means of integrating the UN Global Compact’s principles into the operations of the UN.

At this workshop UN Global Compact Senior Manager, Thorin Schriber will present the UN Global Compact value proposition and work with suppliers. Local UN Global Compact Networks in Denmark, Finland and Norway will introduce the UN Global Compact and the programmes, platforms and learning opportunities that the networks offer businesses at a global and local level.

About UN Global Compact
UN Global Compact is a voluntary international corporate network launched to support both the private sector and other social actors’ participation in the advancement of responsible corporate citizenship and universal social and environmental principles to meet the challenges of globalization.

The UN Global Compact requests that companies embrace, support and enact, within their sphere of influence, a set of core values in the areas of human rights, labour standards, the environment and anti-corruption, known as the 10 principles of the UN Global Compact.

The UN Global Compact provides a universal language for corporate responsibility and provides a framework to guide all businesses regardless of size, complexity, or location. We’re your guide every step of the way. We’ll help you commit to, assess, define, implement, measure, and communicate your sustainability strategy.
